

Interuniversity doctoral program in Geomatics Engineering. Regulations for the presentation of doctoral theses

by compendium of articles (approved by the CAPD of the UPV on 25/06/2020)

General regulations

The presentation of theses as a compendium of articles is governed by a general regulation within the UPV related to its format and that can be consulted at:

<https://www.upv.es/entidades/edotorado/institucional/>

Specific regulations

The Academic Committee of the Doctoral Program (CAPD) in Geomatics Engineering will evaluate the application considering the following specific quality criteria:

- A minimum number of **three JCR indexed contributions** is established to present a thesis in this modality, of which at least one must be in the first quartile (Q1), or at least two in the second quartile (Q2).
- The PhD student must be first author on at least 2 of the contributions.
- The Director/Co-Director (UPV) must be co-author in at least 2 of the contributions. • Articles must be published or accepted with the DOI already assigned by the editor.
