Summer School of Environmental Intelligence

Second edition of the International School in the field of Environmental Intelligence, dedicated to the digitalization of natural environments.

The event aims to provide society with a vision of the different approaches to the natural environment in terms of access to useful information using new tools such as remote sensing and the SWAT model.

The event takes place on 19, 20 and 21 June 2024, at the Universitat Politècnica de València (UPV), Edificio E (escuela técnica superior informática), organised in cooperation with the WATCHPLANT and SMARTLAGOON projects.
